Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As the Executive Director of the Lawrence County Chamber of Commerce in western Pennsylvania, I am writing to voice my organization's support for the union of Comcast and NBC Universal. Comcast is an outstanding member of our Chamber and a well-respected employer in our community.

The Lawrence County Chamber of Commerce is a volunteer, non-profit organization committed to helping solve today's complex business and community problems. We are working to shape the future of our region and believe that businesses can blend talents to become part of a team that ensures a better economic environment for all. Comcast is definitely a part of that team.

Comcast is an excellent partner, meeting the needs of the community, working side by side with other businesses in the area, and never hesitating to lend support when asked. The company, through its practice of engaging local suppliers, has generated a great deal of business for our fellow members. It is also one of our best employers in the area, which should not be overlooked in such challenging economic times.

Furthermore, Comcast is an active participant in Chamber activities and educational events. It regularly sponsors opportunities for our members to meet with elected officials. These events encourage open and effective dialogue on all levels and make our region's voice stronger as a result.

Comcast is a positive influence in Lawrence County by serving the business community and beyond. I ask the FCC to consider the Lawrence County Chamber's perspective as it reviews Comcast's proposed partnership with NBC Universal.

Sincerely,

Bob McCracken
Lawrence County Chamber of Commerce

CC: Commissioner Michael J. Capps
Commissioner Robert McDowell
Commissioner Mignon Clyburn
Commissioner Meredith Attwell Baker
